

## Fully Automatic compact design Sanitary napkin making machine

### About us:

We are Manufacturer and Exporter of machineries with latest technology.

Our industry is growing at tremendous speed because of our Engineering team to design of Vide ranges of machineries with inhouse R&D Setup with our own fabricating and manufacturing setup with highly skilled employees.

We also would like to mention another delightful aspect of our business. As we matured into standardize production and improved in-house quality control. it is totally transformed the way we did our business and give us better control over our production cost.

we are in field since 2001. Today it takes pride and honor for exporting machines which were never been possible in the given budget. Apart from the fact that thousands of our machines are running successfully in all part of India. we have also exported to Bangladesh, Uganda, UAE, Dubai, Iran, Nepal etc.

### Layout:

### Certification:

## Fully Automatic compact design Sanitary napkin making machine will make as per design and size

- › The machine will make as per the design and shape in required size at the speed of 70 pcs per minute

## Machine specification

- › Dimensions (L x B x H) - 13ft x 3ft x 7ft
- › Pad Production Rate -70 pads/min\*
- › Pad Type -Ultra-thin with wing/all types as per the die
- › Release Paper -Manual application using transfer adhesive tape
- › Weight -430 kgs
- › Power Consumption -6.5 kW Single phase 220v/6.5 kW/50hZ

Certification:

## UV Treatment Sterilizer Machine with Convery belt

**BM**besto  
Mechines  
Machine Designers|Manufacturer|Traders|Exporters

It Scientists have used **UV light** to kill germs and sanitize equipment for over 100 years. The process is called **ultraviolet germicidal irradiation (UVGI)**. Since the 20th century, **UV sterilization** has been used to disinfect things will sterilizer the pad at .

Certification:

## CONTINUOUS POUCH SEALING MACHINE

Band sealers are suitable for sealing individual pouches/bags automatically. The machine has a variable temperature controller and speed control, to suit different grades of plastic materials. Three types of models are available: Horizontal type, Vertical type with foot stand type. Other special models include Nitrogen filling attachment, vacuum option, Printing attachment, and for heavy bags sealing.

### TECHNICAL SPECIFICATION

Voltage (V/Hz)	: 230v/50Hz
Power	: 650W
Sealing Speed (m/min)	: 0-12 (0-16)
Sealing width	: 8-10
Temperature range	: 0-300
Film Thickness (mm)	: 0.08
Overall Conveyor (LxWxH (mm))	: 840x380x320
Net Weight (Kgs)	: 32

Quotation: NO : SNbesto/03/05/2021

The total set of three machinery is Rs: 13,50,000-00 INR (Rupees thirteen lac fifty thousand Only)

In USD 19000-00 (Nineteen thousand US Dollars Only)

All taxes, transport, Duties, Packing and forwarding Extra.

Machinery will be delivery at our works place only. Fully tested and run at our works place.

All machinery will have one year warrant for any manufacturing defects only.

Online installation support and training will be given for Other country customers.

After receiving 100% payment the machinery will be deliver within 45 days.

Our bank details:

Account Name: **BESTOMECHINES**: Account NO :**920020066695478**

Bank Name: **AXIS BANK**

Account type: current IFSC code: **UTI0000890**

Branch: Uppal Kalan

Thanks,

 Proprietor.

For Bestomechines.
